

INVITES YOU TO

**Our Just Voice! Our Continent! Our Future!
A Civic Mobilization Dialogue**

Tuesday, 18th July 2017

14:00 - 16:00

Africa's youth, especially students, must challenge the dictatorial, tyrannical and malevolent leaders who deny their own people access to the basic rights that every human being should have. Even though a significant number of Africa's problems emanate from slavery, colonialism and apartheid, there are those that are created by Africans themselves, and in particular Africa's leaders. Africa's dictators and autocrats are the main reason that external forces can infiltrate and exploit our countries and societies to their advantage. Even though it is necessary to pursue the agenda of 'decolonisation', it is equally important to confront and call-out our leaders on the societal problems that are self-inflicted and self-induced. Join us for a civic mobilization event at UCT to dialogue on how young people can define the vision and lead the march towards a better Africa. Our Continent! Our Home!

VENUE:

University of Cape Town
Beattie Building, Upper Campus, Room: B114

Hosted by Department of Social Development at UCT
