Acronyms used in this policy

1. DSA: Department of Student Affairs
2. SHAAS: Student Housing Admissions and Advocacy Services
3. SH & RL: Student Housing & Residence Life
4. SHAC: Student Housing Admissions Committee
5. AC: Admissions Committee
6. AO: Admissions Office
7. FU: First-time entering undergraduate
8. TU: Transfer undergraduate
1. INTRODUCTION

This policy must be read in conjunction with the academic Admissions Policy, as approved by Council or such subsequent academic Admissions policies as may be approved by Council.

This policy covers a five year period, with reviews undertaken by Council each December, for admission in February of each of the following years so as to ensure coherence and alignment with any changes to the Admissions Policy within this period.

The purpose of this policy is to guide the allocation of rooms to applicants and students requiring residence accommodation. The primary goals that the University has in providing student housing are:

- Support the general Admissions policy that seeks to admit to UCT students of high academic quality;
- providing redress by addressing the legacy of racial discrimination and inequality in schools and in the higher education system, and building a diverse student profile that reflects the demographics of South African society;
- contributing to academic success, retention and throughput by providing a living environment conducive for learning; and
- enhancing and facilitating the living and learning experience of students within a diverse student residence community.

2. CATEGORIES OF STUDENT HOUSING

The policy and criteria for admission to University housing assume that the student housing cycle for

(a) an undergraduate student will usually be admitted into a first-tier residence, with subsequent readmission into a 2nd- or 3rd-tier residence; and

(b) postgraduate students will be considered for entry into 2nd or 3rd tier accommodation.

Direct entry into the 1st tier is for first-time entering and entering transfer students. The 1st tier provides a reasonably uniform standard of accommodation, catering and related facilities. The 1st tier-residences are staffed by part-time wardens and provide programmes supportive of academic, leadership and life skill development as well as access to student learning centres.

The second tier is a largely self-catering sector, with some catering options, generally for more senior undergraduate and postgraduate students.

The third tier provides postgraduate students with self-catering accommodation.

The Residences Committee places each housing unit into these categories. The categorisation of residences set out below is for 2016 and is subject to change.
(a) 1st Tier Residences

Baxter Hall, Carinus, Clarendon House, College House, Fuller Hall, Glendower, Graça Machel Hall, Kopano, Leo Marquard Hall, Rochester House, Smuts Hall, Tugwell Hall, University House, Dullah Omar Hall, Varietals, and Kilindini (as College House annexe)

(b) 2nd Tier Residences

Catering: Forest Hill G, Groote Schuur Residence and Medical Residence

(c) 3rd Tier Accommodation

Amalinda, Avenue Rd, Woodbine Rd, TB Davie Court, JP Duminy Court, Forest Hill F, Linkoping, North Grange, Rondeberg Flats, and Obz Square

(d) Inglewood will be reserved for PHD student-staff from the universities of Fort Hare and Venda as per agreement with the DHET.

3. IMPLEMENTATION OF THIS POLICY

The Director of Student Housing & Residence Life (SH & RL) will implement this policy under the direction of the Admissions Committee (AC) and Student Housing Admissions Sub-Committee (SHAC) (a standing sub-committee of the AC). The Director of SH & RL will act after consultation with the Executive Director, Student Affairs (ED: DSA), the Director of the Admissions Office (AO) and the Students’ Representative Council (SRC) so as to ensure that services are responsive to student needs and the University’s needs.

The Director: SH&RL will work with the Faculty Managers to ensure that an appropriate number of firm offers of accommodation are made to individual applicants and that caution is exercised with regard to the over-allocation of spaces.

4. PRINCIPLES FOR THE AWARD OF PLACE IN STUDENT HOUSING

(a) Places in UCT-provided student housing are limited and as the demand is far greater that the available places, in principle students and applicants who live outside the greater Cape Town area will be prioritised. Provision is made for:

(i) applicants who have not been registered previously as students at UCT: have been admitted to a programme of studies by a faculty in the year for which residence accommodation is sought, a housing offer will be made in terms of the criteria as set out in paragraph 6 below;

(ii) students who are registered at UCT: are entitled in terms of UCT’s academic rules to register for a programme of studies in the academic year for which residence accommodation is sought;

(iii) applicants not registered at UCT who have previously been registered at UCT and who have not exceeded the maximum number of years permitted to live in residence (see paragraph 4 (f) (g) and (h) below); have been admitted to a programme of studies in the academic year for which residence accommodation is sought;

(iv) applicants admitted to a postgraduate programme of studies in the academic year for which residence accommodation is sought; and to a limited number of postdoctoral research fellows.
(v) An under-graduate student or applicant who can demonstrate to the satisfaction of the Director of Student Housing that failure to be in student housing would cause him/her excessive hardship may apply for and be allocated a student housing place. (See paragraph 5 below for the special case of students with disabilities.)

- Within the faculty apportionment to ensure equity (the objective should be that 80% of the 2240 places be assigned to redress categories: 1 (where a parent under the apartheid system was classified Black), 2 (where a parent under the apartheid system was classified Coloured), 3 (where a parent under the apartheid system was classified Indian) and 4 (where a parent under the apartheid system was classified Chinese).

An additional 5% of the 2240 places to be allocated to undergraduate applicants (FU) from other African countries.

(b) In support of the university’s internationalization objectives, 150 places will be allocated to semester study abroad students on the recommendation of the International Academic Programme Office (IAPO). These students will be allocated to a variety of residences in the housing system.

(c) Students who enter the UCT residence system for the first time as undergraduates, may be permitted to remain in residence for a maximum of a first undergraduate degree/diploma duration (i.e. the length of the qualification/for which the student is registered) for undergraduate studies. They will ordinarily only be able to remain in a first-tier residence for a maximum of two years. Notwithstanding this general two-year limit for first-tier residences students

- who are eligible in terms of permitted years of remaining in residence and who apply for readmission to their first-tier residence for a third or fourth year may be readmitted to that residence based on their role and contribution to the residence concerned, if recommended by the warden

- who are not eligible in terms of the permitted years of remaining in residence and who are elected to the house committee or appointed as sub-wardens may remain in residence for one or two further years during their year(s) of office.

(d) Students who enter the UCT residence system for the first time as postgraduates may be permitted to remain in residence for a maximum of three years.

(e) Students who complete all the requirements of an undergraduate degree or diploma while in the UCT student housing system will be eligible for student housing if they register for, or intend registering for, a postgraduate degree or postgraduate diploma, and if admitted to residence may be permitted to remain in residence for a maximum of three years as postgraduate students.

(f) Students who, having entered the UCT residence system earlier and who, following an absence, return to the residence system to undertake consecutive programmes of studies, will be subject to the conditions set out in (f) above.

(g) Not all eligible applicants and students will get a place because the number of places is limited.
5. **PLACES FOR STUDENTS WITH DISABILITIES**

Limited accommodation is available in some residences to provide for the needs of students with physical disabilities. As a matter of policy SH&RL will try to make accommodations for applicants and students with disabilities, especially in case where 4(d) above applies.

6. **HOUSING ELIGIBILITY CRITERIA FOR FIRST TIME ENTERING UNDERGRADUATES (FU)**

Housing offers to new under-graduate applicants will be made according to the criteria as set out below:

- **Financial Aid:** All students who are made an academic offer and are awarded financial aid will be made an offer for housing.
- **Minors:** All students who are minors on 1 February in the year of registration and are made an academic offer will be made an offer for housing.
- **Excellence:** All entering u/g applicants who score 540 APS points will be made an offer of housing.
- **Faculty criteria will be proposed on the basis of strategic priorities in the faculties and approved annually by the Admissions Committee. Faculty strategic criteria include rules–based and discretionary.**
- **Medical needs:** To be confirmed (ratified) by Disability Service and Student Wellness.
- **Director’s Discretion:** These are high level special requests to which the director must apply his/her mind when considering a request for housing.

7. **RESIDENCE ALLOCATION CRITERIA FOR NEW STUDENTS**

(i) **1st tier allocation criteria for new students**

Residence allocation is done by the SH&RL’s SHAAS’ office.

Residence allocation aims to allocate new and returning students to individual residences (i.e. buildings) with the aim of achieving race, academic merit and area of study diversity within each residence (and gender diversity in mixed-sex residences). Applicants are invited to indicate their preference for a catering or self-catering residence.
Residence allocation will take account of the need to make a particular placement if it would make a significant difference to the well-being of the student concerned; examples are physical disability; certain health problems; the placement of siblings together, and affordability (allowing for choice of double room).

Most Health Sciences students who are offered student housing places will be allocated to one of the (usually) first-tier residences close to the Health Sciences campus (i.e. Clarendon House, Carinus, or Rochester House.

Discretion will also be exercised in allocating other students to particular residences where a strong disciplinary case exists for this (e.g. Performing Arts and Music students).

8. **APPORTIONMENT OF PLACES: NEW AND RETURNING APPLICANTS**
   
   (a) **1st tier residences**
   
   Each year not later than April the AC will determine the number of first-tier places to be made available for the following year for
   
   • first time entering and transfer undergraduates;
   
   • students who were in first-tier residences in the previous year, and who in the intake year will be in their second year in residence and for who may be offered places in residence for a 3rd or 4th year in terms of the policy;
   
   • having regard to the enrolment plan.

(b) **2nd and 3rd tier Residences**

Each year not later than April the AC will determine guideline numbers of 2nd and 3rd tier places to be made available for the following year for

• first-time entering and transfer undergraduates;

• undergraduate students transferring from first-tier residences;

• UCT students wishing to continue in residence for postgraduate study; students in 2nd and 3rd tier residences wishing to continue in residence; first-time entering and transfer postgraduate applicants;

• students with spouses and/or minor dependents; and postdoctoral research fellows;

• having regard to the enrolment plan.

(c) **Guidelines for priority**

Students in first-tier residences may apply to remain in a first-tier residence and/or to transfer to a 2nd tier in the following year. Applicants will be allocated 2nd tier places by SHAAS, after consultation with wardens, preference:

• among undergraduates being given to students who have spent the least number of years in residence;

• among postgraduates, to students in their first year of postgraduate study; and

• to those who have made a special contribution to a residence, house or block of flats even though they will have been in residence for 4 years or more at the beginning of the previous intake year.
Provided that where FUs and TUs are admitted to 2nd tier residences they will be counted as part of the number of places allocated to FUs and TUs.

Students who are unsuccessful in being allocated to their 1st or 2nd preference will be reallocated to the residence in which they are living at the time of application for the following year or allocated to a residence in the appropriate tier, subject to the eligibility criteria.

(d) Accommodation for students with spouses and/or minor dependents

A small number of self-catering flats will be made available for allocation to students

- with minor dependents; and/or
- who are married or in committed domestic partnerships.

(e.g. single parents, students with minor dependent siblings, married students or students in committed domestic partnerships).

Preference in the allocation of these flats will be given to postgraduates. Account will be taken of the student status of both members of a couple, and in particular of the number of years each has spent in UCT student housing. If both members of the couple are students, account will be taken of the number of years they may have spent in residence, their needs and whether they are ordinarily resident in Cape Town.

9. TRANSIT ACCOMMODATION

Transit accommodation is accommodation for students who were offered residence accommodation, do not yet have a placement for the year, and need to be placed temporarily until a room becomes available. SH&RL will use all available spaces to provide transit accommodation (including rooms within residences not intended to serve as student accommodation, and/or which have been identified for other purposes e.g. study rooms, office space, staff rooms and storage rooms).

Transit accommodation may be necessary at the onset of each student housing admissions cycle because attempts to balance demand and supply for student residence accommodation when making offers, sometimes lead to over offers.

Transit accommodation offers will be made by SHAAS, following consultation with SHAC and the Director SH&RL.

On the date at the start of the academic year on which students should have signed into residence, any unfilled places will be preferentially allocated to students in transit accommodation who had been given a firm offer of accommodation.

Transit accommodation arrangements may take up to a maximum of six weeks to be resolved. Where students remain in transit accommodation for longer than six weeks, their situation will be reviewed and SHAAS will offer one or more of the following options, appropriate to their individual situation:

(i) To remain temporarily in the accommodation provided, and to pay a reduced residence accommodation fee of 75% of the full student residence accommodation fee cost for the duration in transit accommodation. (The pro-rata full fee will be charged upon the student subsequently taking up a regular housing place in the same or another residence.);

(ii) To remain in the transit accommodation for the duration of the academic year, and to pay a reduced student residence accommodation fee of 75% of the full residence accommodation fee for the year;
(iii) To leave the student residence accommodation and fend for himself or herself in which case he/she student will be given a fee rebate of 30% of the residence accommodation fee cost for the actual occupation period, on condition that SH&RL confirms in writing that no regular residence accommodation could have been provided for him/her beyond the 6-week period of transit accommodation.

10. PROCEDURES AND ELIGIBILITY CRITERIA FOR THE ALLOCATION OF STUDENTS TO SPECIFIC RESIDENCES BY THE SHAAS AND THE WARDENS

(a) Student housing places and academic places

Entering applicants and returning students must submit an annual written application for residence accommodation.

SHAAS will not make a firm offer of a student housing place to an entering applicant unless the applicant has been made a firm or early offer of an academic place for the year of admission.

(b) Allocation of new students to specific residences

(i) Students who enter the student housing system for the first time will be allocated to specific residences by the SHAAS within a policy framework approved by the AC in or before April in the year prior to admission on the recommendation of SHAC and of the Residences Committee/Residences Forum, consistent with paragraphs 1 and 4 above.

(c) Allocation of places to returning students

The warden will, in consultation with SHAAS, select from the eligible returning students (from his/her own or another residence)

Wardens must take the following into account when making these selections:

- The goals of the student housing system;
- The academic achievement of applicants, and their contribution to the residence, house or flat;
- The special needs of applicants for student housing;
- The provisions of General Rules for Students R11.5-R11.7

(d) Allocation of new and returning Health Sciences students

Health Sciences undergraduate students in the second year and higher have a different academic year. In order to accommodate the different term dates the Health Sciences students will be allocated to designated residences for any period the residence in which they are resident is not open, with some limited choices, by SHAAS within a framework approved by the AC.

(e) Enrolment co-ordination

SH & RL, and in particular the SHAAS, must maintain close contact with all faculty offices, the Undergraduate Funding Office and the AO to ensure that the strategic commitment to an integrated and co-ordinated admissions system is achieved.

11. FILLING OF STUDENT HOUSING VACANCIES

If student housing vacancies exist which cannot be filled by students or applicants who are eligible for housing including students in transit accommodation, then these vacant places can be offered to students or applicants who are not eligible for housing in terms of this policy.
12. **STUDENTS WHO ARE NOT PERMITTED ON ACADEMIC GROUNDS TO RENEW THEIR REGISTRATION**

An offer of a residence place to a student who is refused permission on academic grounds to renew his/her registration will be cancelled if he/she

- does not appeal successfully to the Readmission Appeal Committee (RAC);
- or if the RAC refuses the appeal.

If a student takes up his or her offered place pending the resolution of an appeal to the RAC and his or her appeal fails the residence place will be cancelled, and the student will be liable for a pro-rata fee for the duration of his or her occupancy during the year.

13. **STUDENTS WITH FEES OUTSTANDING**

The student housing place of a returning student will be cancelled unless the student has cleared any fee debt owing from the preceding year (other than a fee debt of less than R400) by no later than 20 January of the new academic year.

Failure to pay the required initial amount of residence fees by the date determined by the Fees Office will result in the student housing place being withdrawn for international students (including international students paying local fees).

Residence places of international students (especially those in SADC countries) who have been granted a concession in terms of date of initial fee payment by the University will be retained until 1 April, unless the University has granted a further concession to pay fees after this date (i.e. after the due date determined by the Fees Office)

Failure to pay the required initial amount of residence fees due by due date will result in the student housing place being withdrawn for South African students who have not been offered financial aid by UCT.

14. **CANCELLATION OF STUDENT HOUSING OFFERS**

A residence offer to an applicant new to UCT or to an applicant for admission or readmission by a returning UCT student will be cancelled if:

- he/she does not sign into the residence by:
  - (i) 22h00 on the third day after the official opening of residence (refer to Student Accommodation General Application Information Handbook 1)
  - (ii) 12h00 on the final Friday in February in the case of postgraduate students offered accommodation. However, if such students intend to sign in within four days after the official opening of residence, this must be confirmed in writing in advance to the SHAAS. Such students will be financially liable for the full annual residence or accommodation fee applicable to the residence or unit to which they have been allocated.
15. RESIDENCE ADMISSIONS WHO DO NOT COMPLETE ACADEMIC REGISTRATION FORMALITIES

(a) Anyone who takes up a residence place but who fails to complete academic registration requirements by the following dates will, subject to (b) below, be required to leave the residence and will be liable for the fee for the duration of his/her occupancy:
   - undergraduates 14 days after the start of lectures
   - post graduates by the end of the first week of March.

(b) The Director: SH & RL may, after consulting the warden, the faculty office, and any other appropriate academic administrative department, extend these dates in individual cases.

16. GENERAL PROVISIONS

(a) A student seeking readmission to student housing in the following year must apply to the SHAAS by 15 August.

(b) A UCT student who has not previously been in residence, but who seeks accommodation in the following year, must apply to the SHAAS by 15 August.

(c) A UCT student who is offered a place in student housing for the following year, must accept the offer of a place by 15 October of the current year. Offers to which no response has been received by 31 October will be cancelled.

(d) A student or applicant who is aggrieved by a decision affecting him or her made in terms of this policy may appeal against the decision by submitting a written appeal to the Director SH&RL. Such appeals will be heard and decided by an independent Appeals Committee, constituted by the University Student Affairs Committee (USAC) for the purpose. The decisions of the Appeals Committee must be implemented by the Director: SH&RL.

(e) Any review of this policy shall be undertaken after consultation with the Students’ Representative Council, the Students’ Residence Council, the College of Wardens, the Residence Forum and the Residences Committee. AC and the University Student Affairs Committee (USAC) is responsible for submitting the draft policy and any revisions to it to the Council.
