UNLEASHING THE NEW GLOBAL UNIVERSITY

HOSTED BY

UNIVERSITY OF CAPE TOWN
IYUNIVESITHI YASEKAPA • UNIVERSITEIT VAN KAAPSTAD

The pandemic has disrupted higher education international activities and the income on which universities increasingly depend. But the previous model was already problematic, contributing to global warming and benefitting rich universities more than poor. Unleashing the new global university is a series of virtual events in which we invite innovative, international and local speakers to have challenging conversations that help us rethink global collaborations for a sustainable and equitable planet.

REGISTER HERE
